

## GOT QUESTIONS?

Let Sterling Smartware show you how to move your idea from concept to prototype to FDA/CE approval with our

### Free Analysis Service

Sterling Smartware Solutions has grown to become the leader in specialized medical device development services. One of the biggest reasons is our proven track record of FDA/CE approvals for clients. To find out how we can help your business, we invite you to take advantage of our free analysis service. We will work with your team to find the solution to your project needs enabling you to bring your product to market quickly and at the lowest cost. Sterling experts will create a proposal that includes required deliverables, an investment schedule, and a working time line - everything you need to support a successful FDA/CE submission, all at no cost. You bring your vision, we'll take care of the rest.
